

Adding scale bars and north arrows

A black silhouette of a weather vane with a rooster on top, mounted on a pole. The background is a dark gray gradient.

Adding scale bars and north arrows

{ggspatial} for scale bars & north arrows

The `{ggspatial}` package allows you to add scale bars and north arrows to **all** of the maps we've created in this section.

In 02_10 I've included scripts for adding these to most of the "your-turn" exercises in this section.
